Question	Answer
1. What is the main purpose of the study?	To investigate the effect of the new curriculum on the learning outcomes of the students.
2. What are the research objectives?	To compare the learning outcomes of the students who were taught using the new curriculum with those who were taught using the old curriculum.
3. What is the research hypothesis?	The students who were taught using the new curriculum will have higher learning outcomes than those who were taught using the old curriculum.
4. What is the significance of the study?	The study is significant because it will help to determine whether the new curriculum is more effective than the old curriculum.
5. What are the limitations of the study?	The study is limited to a single school and a single subject.
6. What are the conclusions of the study?	The study concluded that the new curriculum had a positive effect on the learning outcomes of the students.
